Professional Tutor | Imperial College London | MA in Applied Mathematics

Holding an MA in Applied Mathematics from Imperial College London and a BSc in Physics from Durham University, I specialise in admissions tests like TMUA and STEP, as well as A-Level Maths and Physics, with nine years of proven success with students.

Teaches:

TMUA

A-Level Maths

A-Level Physics

Curriculum:

TMUA

A-Level

Qualifications

Imperial College London: MA in Applied Mathematics (2014–2015)

Durham University: BSc in Physics (2010–2014)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past nine years, I have guided students through critical stages of their academic journeys, particularly in admissions test preparation for TMUA, STEP, and MAT. My experience with top A-Level curriculums has equipped me to help students excel in demanding subjects, including Mathematics and Physics.

In addition to secondary-level tutoring, I have supported undergraduates by tutoring in mathematical methods for physics, computational mathematics, and advanced calculus. My familiarity with multiple academic boards enables me to adapt my teaching to various requirements and academic standards.

My past work includes collaboration with university admissions boards, giving me insights into what is expected in entrance exams and beyond. Many of my students have successfully progressed to leading institutions, leveraging the skills and confidence gained through our sessions.
